

PURONICS® DUOFRESH™

The Next Generation of Ionics® Solutions

Don't suffer from problem water. Purionics® gives you double the water treatment power

The Purionics® DuoFresh™ dual process whole-house water treatment system is designed to give homeowners high quality water throughout the entire home. This system incorporates the environmental benefits of 'green' technology filtration and advanced water conditioning, plus the power of SilverShield® Protection. The computerized control valve monitors your water usage to maintain optimal effectiveness of the system ensuring your family always has the highest quality, great tasting water.

Hair and skin are soft and silky

Food tastes better

Dishes are cleaner

Better tasting beverages

Dual Process Water Treatment System

- ▶ Filtration using 'Green' technology without chemicals
- ▶ Conditioning to effectively reduce hardness

Computerized Control For Maximum Efficiency

- ▶ Patented Solid State Microprocessor controls operation of system
- ▶ Measures water usage to backwash and recharge when necessary
- ▶ Creates auto reserve so you never run out of quality water
- ▶ Double backwash ensures a clean filter media bed
- ▶ Ensures consistent superior quality water

MicroSilver Bacteriostasis™ Technology

- ▶ Microscopic particles of silver are embedded into SilverShield® HYgene® media to inhibit bacteria growth within the filter media bed

Refiner

- ▶ SilverShield® HYgene® media reduces objectionable chlorine and chloramine tastes and odors

Filter

- ▶ Purifex® media uses green technology without the use of chemicals to filter water making it smooth and gentle.

Multi-Layered Tank

- ▶ Inner layer of Polyethylene
- ▶ Durable outer fiberglass layer

Conditioner

- ▶ High-Capacity S-759 monospheric resin has uniform sized beads for higher flow rates and efficiencies
- ▶ Reduces iron, turbidity and hardness

Clarifier

- ▶ Silica gravel polishes water to a sparkling clarity

Backflush Tank

Potassium or Salt

Float and Distributor Assembly

Potassium or Salt Solution

NASA Technology at work in your home

- ▶ MicroSilver Bacteriostasis™ Technology is based on NASA silver ion technology developed to purify water on the Space Shuttle Orbiters.
- ▶ SilverShield® HYgene® filter media - incorporates MicroSilver Bacteriostasis™ Technology into activated carbon to inhibit bacteria growth within the system's filter media while reducing objectionable tastes and odors.

This system is designed for use with municipal water or private well water that has been chlorinated. Any non-chlorinated private well application should use the well version of this system without HYgene®.

Your Authorized Independent Dealer:

Contaminants or other substances which can be removed by the Puronics® DuoFresh™ system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
